Overview

The Dashboard page presents information from various **Business Online Banking** pages in small moveable windows called panels. You can customize your personal dashboard with any combination of panels (determined by your entitlements within the system) that provides you with the most relevant information you need.

For example, you can add multiple “Important Account Balance” panels to provide a quick view of all account balances you need easy access to in the course of your day-to-day operations. In addition, some panels allow you to take action on information and links directly from the panels.

Learn more about how you can create your customized Dashboard below.
